EDUCATION

2026-	Case Western Reserve University Ph.D. in Clinical Translational Science
2024-2025	Eastern University M.S. in Data Science
2013-2015	Case Western Reserve University M.A. in Medical Anthropology
2008-2012	Case Western Reserve University B.S. with Honors in Biology
2008-2012	Case Western Reserve University B.A. in Medical Anthropology

HONORS AND AWARDS

2024	Case Western Reserve University Staff Education Enhancement Fund Recipient for Conference Travel
2017	Case Western Reserve University, Graduate Dean's Instructional Excellence Award
2016	Case Western Reserve University Student Employee of the Year
2012	Case Western Reserve University Support of Undergraduate Research and Creative Endeavors (SOURCE) Symposium 1st Place Natural Sciences Poster Award

WORK EXPERIENCE

2023-2026 **Bioinformatics Research Associate with Special Technical Skills**, Prevention Research Center for Healthy Neighborhoods, Case Western Reserve University

- Development of data collection instruments, protocols, and databases to support public health research studies on prostate cancer screening, rural environmental health, and a food-as-medicine intervention study for food insecure pregnant women.
- Partner with external and internal stakeholders from local government, state and federal funders, hospitals, and community members to design data collection tools.
- Organize and led large-scale survey data collections of youth health behaviors across two counties and as a state-contractor to understand school-age health needs
- Analyze data for diverse public health projects related to chronic health conditions, substance use, tobacco use disparities, and cancer screening for presentations and publications
- Development of novel data collection methodologies to track emerging tobacco products and assisted with content analysis of product descriptions

2021-2023 **Project Manager/Data Architect**, PRCHN, CWRU

- Developed online data collection tools for an R-01 study on cigarillo use and flavor among young adults including the experimental tobacco marketplace (ETM) and an online survey focused on tobacco use histories, flavor perceptions and preferences, and responses to hypothetical flavor restrictions.
- Analysis and presentation/manuscript development of survey data to examine impact of flavor restriction policies on young adult cigarillo users.
- Designed interview guides for study with current and former cigarette smokers in Cleveland, and 2-1-1 call specialists focused on the local availability and provision of tobacco cessation resources. Conducted interviews and co-developed the qualitative codebook using a grounded theory approach to inform local tobacco cessation program development.
- Oversaw NIH reporting, protocol development, and managed graduate assistants

2018-2020 **School Based Surveillance and Evaluation Coordinator**, PRCHN, CWRU

- Programmed and managed online data collection of Youth Risk Behavior Survey (YRBS) for Cuyahoga County, Summit County, and Ohio Department of Health
- Created volunteer training protocols and administration instructional materials for survey administrators
- Cleaned, weighted, and recoded local Youth Risk Behavior Survey data to generate county and district level reports
- Performed analysis for and designed infographics/data briefs and other educational materials for diverse audiences focused on a variety of health topics including sexual risk behaviors, substance use, and LGBTQ students utilizing YRBS data.

2016-2018 **Graduate Research Assistant**, PRCHN, CWRU

- Designed web-based data collection instruments for the Cuyahoga County Teen Pregnancy Prevention Program
- Assisted with qualitative data collection and analysis with program staff and participants
- Prepared data collection instruments and led data entry
- Developed regular reports for Cuyahoga County Board of Health on participant program perceptions, completion of curriculum activities, and identifying possible program adaptations to improve engagement and fidelity to curriculum.

2013-2018 **Graduate Research Assistant**, Dittrick Medical History Center, CWRU

- Curated museum gallery on 19th Century Childbirth technologies and trends
- Designed/programmed iPad interactive exhibits
- Contributed to museum publications and educational materials for diverse public audiences
- Managed museum social media accounts
- Assisted with content development for museum exhibits

2013-2019 **Graduate Teaching Assistant,** Dept. of Anthropology, Case Western Reserve University

- Teaching assistance for Intro to Cultural Anthropology, Intro to Medical Anthropology
- Led required ANTH 480 - ANTH 481 recitation for M.A. students (2017 - 2019)
- Development of lesson plans and study guides for graduate anthropology studies on social/behavioral theories
